

3rd grade addition

Date _____

Solve the next additions:

Name _____

1) $120 + 31231 =$

7) $50827 + 8991 =$

2) $24 + 3692 =$

8) $59754 + 6291 =$

3) $12919 + 244 =$

9) $882 + 1888 =$

4) $6875 + 451 =$

10) $202 + 291 =$

5) $1511 + 358 =$

11) $120 + 129 =$

6) $343 + 299 =$

12) $119 + 12991 =$

Solve the next word problem:

1) A store sells \$130 worth of shirts every week. How much they sell in a month?

2 The same store sold the same total amount (result from above!) for the first three months of the year. The rest of the months of the year they made \$500 per month. How much will they make in the full year?
