

# Printable Ring Sizer for Women

**1**

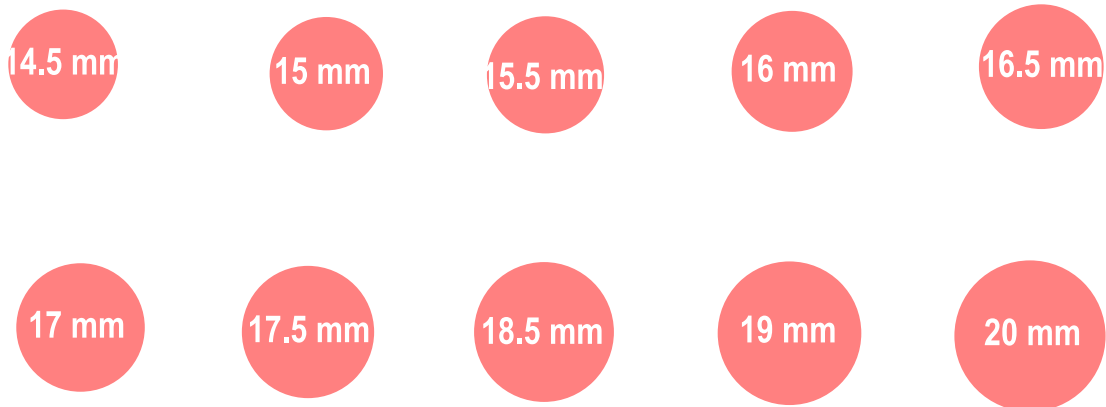

**Cut out and adjust this sizer to the ring finger. The number you can read next to the arrow is the ring size you should get.**

When printed, check that the size of this sizer is 12cm exactly to get the right circumference.

**2**

**Place a ring on top of one of the circles. The right circle will be the one that lets you see the full circle within the inner part of the ring. The number inside the circle (diameter) is the**

**Print on a standard letter size sheet to get accurate results.**
