US 6Y	5.0	34	10.0	25.4
US 7Y	6.0	35	10.4	26.4

How to Measure

1. Place the child’s heel against a wall.

2. Measure from the heel to the longest toe.

3. Compare the measurement with the chart.

4. For growing children, consider leaving a small amount of extra room.

Sizing can vary slightly by brand and shoe style. Always check the manufacturer’s sizing guide when available.
